Vesti Transpiler User Manual

Sungbae Jeong

October 7, 2025

1 Introduction

2 Language Reference

2.1 Basic Grammar

The purpose of vesti is an easy usage of latex. Thus the grammar itself is similar with the latex's one. However, there are some difference. The very different thing is the existence of keywords.

2.2 Keywords

Followings are reserved as a keyword.

```
begenv     compty     cpfile     defenv
 defun     docclass    endenv    importmod
importpkg   importves   startdoc    useenv
```

2.3 Builtins

Followings are reserved as a builtin function.

```
  #chardef      #enum       #eq      #get_filepath    #label
#ltx3_import  #ltx3_off    #ltx3_on    #makeatletter  #makeatother
#mathchardef  #mathmode  #nonstopmode    #showfont      #textmode
```

2.4 `docclass` keywords
